D : Cell cycle control, cell division, chromosome partitioning
Q : Secondary metabolites biosynthesis, transport and catabolism
F : Nucleotide transport and metabolism
P : Inorganic ion transport and metabolism
M : Cell wall/membrane/envelope biogenesis
O : Posttranslational modification, protein turnover, chaperones
J : Translation, ribosomal structure and biogenesis
I : Lipid transport and metabolism
V : Defense mechanisms
H : Coenzyme transport and metabolism
C : Energy production and conversion
W : Extracellular structures
N : Cell motility
E : Amino acid transport and metabolism
L : Replication, recombination and repair
T : Signal transduction mechanisms
U : Intracellular trafficking, secretion, and vesicular transport
G : Carbohydrate transport and metabolism
K : Transcription
S : Function unknown
