N : Cell motility
G : Carbohydrate transport and metabolism
F : Nucleotide transport and metabolism
O : Posttranslational modification, protein turnover, chaperones
M : Cell wall/membrane/envelope biogenesis
H : Coenzyme transport and metabolism
P : Inorganic ion transport and metabolism
U : Intracellular trafficking, secretion, and vesicular transport
E : Amino acid transport and metabolism
D : Cell cycle control, cell division, chromosome partitioning
Q : Secondary metabolites biosynthesis, transport and catabolism
I : Lipid transport and metabolism
A : RNA processing and modification
W : Extracellular structures
Z : Cytoskeleton
J : Translation, ribosomal structure and biogenesis
C : Energy production and conversion
S : Function unknown
K : Transcription
T : Signal transduction mechanisms
B : Chromatin structure and dynamics
L : Replication, recombination and repair
V : Defense mechanisms
